

SLT3290

- 1) "CAUTION" to reduce the risk of fire, electric shock or injury to persons:
 - Use only insulated staples or plastic ties to secure cords
 - Route and secure cords so that they will not be pinched or damaged when the cabinet is pushed to the wall
 - Position cabinet light with respect to cabinet so as to permit reading of the lamp replacement markings during relamping
 - Not intended for recessed installation in ceilings or soffits
- 2) For surface mounted, non-class 2 units, instructions shall include the following:
 - Not intended for surface installation inside built-in furnishings such as kitchen cabinets, china cabinets, or trophy cases
 - The portable cabinet light may be installed under a kitchen cabinet when the power supply cord is not concealed or run through openings in the cabinet
 - Do not conceal power supply cord (or power supply) inside wall, ceiling soffit, kitchen cabinet or similar permanent structure
 - Do not run the power supply cord through holes in the walls, ceilings or floors

Instruction Sheet

Curio Cabinet Light Fixtures

READ THIS FIRST!

Carefully read all instructions before installing and operating fixture. If you have any questions regarding the proper installation or local building codes, consult a qualified electrician.

IMPORTANT SAFETY INSTRUCTIONS

CAUTION: This portable lamp has a polarized plug (one blade is wider than the other) as a feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not alter the plug.

CAUTION: TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK OR INJURY TO PERSONS:

- Use only insulated staples or plastic ties to secure cords
- Route and secure cords so that they will not be pinched or damaged when the cabinet is pushed to the wall
- Position cabinet light with respect to cabinet so as to permit reading of the lamp
- Not intended for recessed installation in ceilings
- Not intended for illumination of aquariums
- Not to be installed in plastic cabinets
- Avoid contact of the cord or combustibles such as plastic, paper goods or similar materials with the lamp, lampholder or reflector

Instructions for proper use:

This curio cabinet light is intended for final installation into free standing furniture only, such as a cabinet (open or enclosed), china hutch, book case, console, bed headboard, etc. It is not intended for an installation that is integral to a building's structure, or into furniture that is intended to be secured or built into a building's structure. For use only with other cabinet lights and illuminated furniture wiring systems where the first element in the series has a ten foot cord. The maximum spacing between cabinet lights is determined by the length of cord provided. Adjacent cabinet lights must be spaced at least 12" apart. Do not use extension cords.

If the use of this product is in question, contact a qualified electrical or building inspector. Installation is to be in accordance with all national (NEC), state and local codes. These instructions must be followed in order to meet the requirements of the Canadian Electrical Code, Parts I and II
